

ANPR camera system proposal for Publow with Pensford Parish Council November 2021

This document has been put together to briefly outline the scope of an ANPR camera system and how it could work for this area.

1 – Placement

Cameras situated at key points to the village would capture time-stamped photographic evidence of all vehicles entering and exiting the village, these could be:

- a) Church Street
- b) Bottom of High Street
- c) Up on the Old Road

Two of the above locations have already been secured by way of approaching residents who are keen to help.

2 – Signage

The below would be situated in view of approaching vehicles as a deterrent and to increase awareness of the system

3 – Support

This idea has support of the Neighbourhood Watch coordinator, the local PCSO has is positive towards it and is approaching an official contact to discuss it with further.

4 – Cost

Below is a quote from the company that installed a camera system for Bishop Sutton PC who recommended them:

Description	Quantity	Unit Price	VAT	Amount GBP
Anpr camera system installed. 1 x 2mp ip ANPR camera 1 x 4channel NVR 1 x 1TB HDD 1 x cable 1 x labour	3.00	1,000.00	20%	3,000.00
			Subtotal	3,000.00
			TOTAL VAT 20%	600.00
			TOTAL GBP	3,600.00

5 – Benefits

- deter crime
- support the police
- reduce fear
- make our community a safer place
- stable or reduced insurance premiums for the whole postcode

A draft usage policy has been created should the idea be taken further.

More cameras could easily be added in Publow and Woollard to encompass more entry/exit points and to include the whole parish.

Cameras can be rotated around different locations if needed.
